

Outreach CRM

This CRM tracks active founder outreach for AgriPartners Alpha v1.2, including active invites, queued contacts, statuses, next actions, and follow-ups.

Use this file for lightweight records only. Do not store private credentials, sensitive personal data, or confidential investor information.

Verification Policy

- Do not send outreach to a queued contact until LinkedIn/profile relevance is confirmed.
- If a person cannot be found or their role appears outdated, move them to `Needs Verification`.
- Prioritize verified Founder Success, Ecosystem, DevRel, Product, Partnerships, RWA, and technical review contacts.

Status Values

- 🕒 Planned.
- 📄 Queued.
- ⌚ Invite sent.
- 🟡 Connection accepted.
- 💬 Message sent.
- 📅 Call proposed.
- ✅ Call scheduled.
- 📧 Feedback received.
- 🔄 Follow-up needed.
- 🚫 Closed.

● Outreach Queue

AgriPartners orders the outreach queue by probability of response, relevance to Alpha v1.2, and ability to support founder success, ecosystem access, partnerships, or technical feedback. The priority is meaningful ecosystem engagement and relationship building, not contacting the highest-ranking executives first. Executive visibility contacts should mainly be followed and engaged through posts until AgriPartners has stronger ecosystem visibility.

Send queued connection requests without a note unless the next action says otherwise, and only after profile relevance is verified.

Follow-Up Template

Hi [Name], just following up in case this is relevant. I am building AgriPartners, an Alpha v1.2 platform on NEAR Testnet for transparent agricultural investment workflows. I would value a short feedback conversation if this connects with your work.
